## **DEFINITIONS**

For the purposes of this Call for Proposals the following definitions shall apply:

**Game:** an activity played according to rules in a specific game environment and whose achievement is a victory

**Video Game:** a type of game played on a computer, a game console or other electronic devices

**Gameplay:** How the Game is played. The Gameplay is based on the game mechanics and on the game design

**Game Mechanics:** all the different rules and commands programmed in the game and creating the game experience

**Graphical User Interface (GUI):** a type of interface allowing users to interact with a device through the use of images / icons in conjunction with text.

**Intellectual Property (IP):** intangible property resulting from a creation and protected by law from being copied or plagiarised.

**Medium:** a means of storage of a **video game**. It can be physical or dematerialised.

**Platform:** electronic device on which a **video game** can be played.

**Narration:** the process of narrating or telling a **story**

**Story:** a description of real or imaginary, inter-connected, characters and events, written with a view to be told or shown

**Accessibility features:** specific game features which enhance the accessibility for gamers with disabilities and other impairments

**Playable Prototype:** is understood under the current guidelines as **Alpha version, Beta version** or **Trial version**.

**Alpha version:** one of the first iterations of a video game. The Alpha version is usually not complete and most likely unstable and comes before the **Beta version**.

**Beta version:** an improved and more stable iteration of the **Alpha version** of a video game after a first phase of **testing & debugging**. The Beta version usually contains most features of a video game, but still needs **testing & debugging**. The Beta version can be closed (restricted group of invited testers) or open (to a larger public).

**Trial version:** the first iteration of the first playable level of a video game. It can be played, tested and used for seeking financial partners

**Gold Master:** the completed final version of a video game from which physical and/or digital copies will be made. The Gold Master is equivalent to Release to Manufacturing or Ready to Market (RTM) and to Release Candidate.

**Development:** the phase starting from the first idea until the production of the first **playable prototype** or first **trial version**, whichever comes first.

**Production:** the phase starting from the testing and debugging of the first **playable prototype** or **trial version** until the end the production of the **Gold Master** or equivalent.

**Testing & debugging:** stage of the **production** phase of a video game aimed at finding problems and solving them.

**Game Design Document (GDD):** a document created by the development team describing amongst others the story, the characters, the design (level, sound, artworks...), the **gameplay**, the **GUI**, the target audience, etc.

**Commercial Distribution:** to be understood as: the video game must have generated revenues, i.e. a financial income. These revenues can be generated for example, from the retail sales of the game, from the sales of in-game items or from advertising. However, being commissioned and paid by a client to produce a video game does not constitute a commercial exploitation/distribution per se.

## **GUIDELINES – EACEA 20/2015**

### **Support for the Development of European Video Games**

#### **1. INTRODUCTION - BACKGROUND**

These guidelines are based on Regulation No 1295/2013 of the European Parliament and of the Council of 11/12/2013 concerning the implementation of a programme of support for the European cultural and creative sector (CREATIVE EUROPE)<sup>1</sup> and its corrigendum of the 27/06/2014.<sup>2</sup>

The European Commission is responsible for the implementation of the Creative Europe Programme and for the decision to grant individual European Union funds. The Education, Audiovisual and Culture Executive Agency hereafter "the Agency" manages the Culture and MEDIA Sub-programme on behalf and under the supervision of the European Commission.

General background information about the Creative Europe programme can be found on the following link:  
[http://ec.europa.eu/programmes/creative-europe/index\\_en.htm](http://ec.europa.eu/programmes/creative-europe/index_en.htm)

#### **2. OBJECTIVES - THEMES - PRIORITIES**

##### **2.1. Objectives**

Within the specific objective of reinforcing the European audiovisual sector's capacity to operate transnationally and internationally one of the priorities of the MEDIA Sub-programme is to:

- increase the capacity of audiovisual operators to develop European audiovisual works with a potential to circulate in the Union and beyond and to facilitate European and international co-production.

The MEDIA Sub-programme shall provide support for the following measures:

- the development of European audiovisual works in particular films and television works such as fiction, documentaries, children's and animated films, as well as interactive works such as videogames and multimedia with enhanced cross-border circulation potential.

The objective is to increase the capacity of European video game producers to develop projects with highly innovative content and quality gameplay, which will have the potential to circulate throughout Europe and beyond and to improve the competitiveness of the European video games industry in European and international markets by enabling the retention of intellectual property by European developers.

Under this Support scheme, applicants may submit a proposal to develop a concept and project (activities to the point that the concept leads to a playable prototype or trial version) of highly innovative and creative narrative storytelling video games designed for commercial exploitation for PCs, consoles, mobile devices, tablets, smart phones and other technologies.

To prove the commercial distribution of a previous eligible video game, the applicant must provide a relevant sales report over the reference period.

**The applicant must also own the majority of rights related to the submitted project.**

The applicant must show that it holds the majority of the rights relating to the project for which support is being sought. It is required to provide a duly dated and signed contract<sup>3</sup> covering the rights to the artistic material included in the application.

With the exception of the costs related to the acquisition of author rights (see point 11.1.b), activities may not start before the date of submission of the application and must end 30 months after this date.

If the project enters into production before the end of this period, the action ends on the date of entry into production of the project.

However, if after the signing of the decision/agreement and the start of the project it becomes impossible for the beneficiary, for fully justified reasons beyond its control, to complete the project within the scheduled period, an extension to the action and to the eligibility period may be granted. ## 10. LEGAL COMMITMENTS

In the event of a grant awarded by the Agency, a grant agreement or a grant decision, drawn up in euro and detailing the conditions and level of funding, will be sent to the beneficiary, as well as the procedure in view to formalise the obligations of the parties.

The form of the legal commitment will depend on the country of origin of the beneficiary:

- Agreement:  
When the awarded applicant comes from a MEDIA country, out of the EU Members States, the 2 copies of the original agreement must be signed first by the beneficiary and returned to the Agency immediately. The Agency will sign them last.
- Decision:

When the awarded applicant comes from an EU Member States, the Decision will be signed only by the Agency acting under powers delegated by the Commission.

The decision must not be returned to the Agency. The general conditions applicable to the decision (General Conditions II.a) are available in the 'Documents register' of the Agency website:

[http://eacea.ec.europa.eu/about/eacea\\_documents\\_register\\_en.php#call](http://eacea.ec.europa.eu/about/eacea_documents_register_en.php#call)

As regards grant decisions, beneficiaries understand that:

**Submission of a grant application implies acceptance of these General Conditions. These General Conditions bind the beneficiary to whom the grant is awarded and shall constitute an annex to the Grant Decision.**

Please note that the award of a grant does not establish an entitlement for subsequent years.

## **11. FINANCIAL PROVISIONS**

### ***11.1. General Principles***

#### **a) Non-cumulative award**

An action may only receive one grant from the EU budget.

In no circumstances shall the same costs be financed twice by the Union budget. To ensure this, applicants shall indicate in the application form the sources and amounts of Union funding received or applied for the same action or part of the action or for its functioning during the same financial year as well as any other funding received or applied for the same action.

#### **b) Non-retroactivity**

No grant may be awarded retrospectively for actions already completed.

A grant may be awarded for an action which has already begun only where the applicant can demonstrate the need to start the action before the grant agreement is signed or the grant decision is notified.

In such cases, costs eligible for financing may not have been incurred prior to the date of submission of the grant application. Only the costs related to the acquisition of author rights are eligible retroactively for a period of 12 months preceding the date of submission.

#### **c) Co-financing**

Co-financing means that the resources which are necessary to carry out the action may not be entirely provided by the EU grant.

Co-financing of the action may take the form of:

- the beneficiary's own resources,
- income generated by the action,
- financial contributions from third parties.

#### **d) Balanced budget**

The estimated budget of the action is to be attached to the application form. It must have revenue and expenditure in balance.

The budget must be drawn up in euros.

Applicants which foresee that costs will not be incurred in euros shall use the exchange rate published on the Infor-euro website available at:

[http://ec.europa.eu/budget/contracts\\_grants/info\\_contracts/inforeuro/inforeuro\\_en.cfm](http://ec.europa.eu/budget/contracts_grants/info_contracts/inforeuro/inforeuro_en.cfm). on the date of the publication of this call for proposals.

e) Implementation contracts/subcontracting

Where the implementation of the action requires the award of procurement contracts (implementation contracts), the beneficiary must award the contract to the bid offering best value for money or the lowest price (as appropriate), avoiding conflicts of interests and retain the documentation for the event of an audit.

Entities acting in their capacity of contracting authorities in the meaning of Directive 2004/18/EC<sup>5</sup> or contracting entities in the meaning of Directive 2004/17/EC<sup>6</sup> shall abide by the applicable national public procurement rules.

Sub-contracting, i.e. the externalisation of specific tasks or activities which form part of the action as described in the proposal and which cannot be performed by the beneficiary itself must satisfy the conditions applicable to any implementation contract (as specified above) and in addition to them the following conditions:

- it may only cover the implementation of a limited part of the action;
- it must be justified having regard to the nature of the action and what is necessary for its implementation;
- it must be clearly stated in the proposal or prior written authorisation from the Agency must be obtained.

f) Financial support to third parties

The applications may not envisage provision of financial support to third parties

## **11.2. Funding forms**

The grants financed through reimbursement of eligible costs in combination with flat rate covering overheads are calculated on the basis of a detailed estimated budget, indicating clearly the costs that are eligible for EU funding.

### **➤ Maximum amount requested**

The EU grant is limited to a maximum co-financing rate of 50% of total eligible costs;

Consequently, part of the total eligible expenses entered in the estimated budget must be financed from sources other than the Union grant.

The amount of the own resources indicated in the revenue part of the estimated budget is regarded as secured, and the amount as a minimum, must be entered in the revenue section of the final account.

The grant amount may neither exceed the eligible costs nor the amount requested. Amounts are indicated in euros.

<sup>5</sup> Directive 2004/18/EC on the coordination of procedures for the award of public work contracts, public supply contracts and public service contracts.

<sup>6</sup> Directive 2004/17/EC coordinating the procurement procedures of entities operating in the water, energy, transport and postal services sectors.

Acceptance of an application by the Executive Agency does not constitute an undertaking to award a grant equal to the amount requested by the beneficiary.

➤ **Eligible costs**

Eligible costs are costs actually incurred by the beneficiary of a grant which meet the following criteria:

- they are incurred during the duration of the action as specified in the grant agreement/decision, with the exception of costs relating to final reports and certificates.

N.B.: The period of eligibility of costs will start on the date of submission of the application and end 30 months after the submission. Only the costs related to the acquisition of author rights is eligible retroactively for a period of 12 months preceding the date of submission.

- they are indicated in the estimated overall budget of the action;

- they are incurred in connexion with the action which is the subject of the grant and are necessary for the implementation of the action;

- they are identifiable and verifiable, in particular being recorded in the accounting records of the beneficiary and determined according to the applicable accounting standards of the country where the beneficiary is established and according to the usual cost-accounting practices of the beneficiary;

- they comply with the requirements of applicable tax and social legislation;

- they are reasonable, justified, and comply with the requirements of sound financial management, in particular regarding economy and efficiency.

The beneficiary's internal accounting and auditing procedures must permit direct reconciliation of the costs and revenues declared in respect of the action with the corresponding accounting statements and supporting documents.

Eligible direct costs:

The eligible direct costs for the action are those costs which, **with due regard for the conditions of eligibility set out above**, are identifiable as specific costs directly linked to the performance of the action and which can therefore be booked to it directly, such as:

- the cost of personnel working under an employment contract with the applicant or equivalent appointing act and assigned to the action, comprising actual salaries plus social security contributions and other statutory costs included in their remuneration, provided that these costs are in line with the applicant's usual policy on remuneration. **NB: this cost must be actual cost incurred by the beneficiary and staff cost of other organisations is eligible only if it is paid directly or reimbursed by the beneficiary.** These costs may include additional remuneration, including payments on the basis of supplementary contracts regardless of their nature, provided that it is paid in a consistent manner whenever the same kind of work or expertise is required and independently from the source of funding used.

- subsistence allowances (for meetings, including kick-off meetings where applicable, European conferences, etc.) provided that these costs are in line with the beneficiary's usual practices;

- costs of travel (for meetings, including kick-off meetings where applicable, European conferences, etc.), provided that they are in line with the beneficiary's usual practices on travel;

- depreciation cost of equipment (new or second-hand), only the portion of the equipment's depreciation corresponding to the duration of the action and the rate of actual use for the purposes of the action may be taken into account by the Agency, **except where the nature and/or the context of its use justifies different treatment by the Agency;**

- costs of consumables and supplies, provided that they are identifiable and assigned to the action;

- costs entailed by other contracts awarded by the beneficiary or its partners for the purposes of carrying out the action, provided that the conditions laid down in grant agreement or grant decision are met;
- costs arising directly from requirements linked to the performance of the action (dissemination of information, specific evaluation of the action, translations, reproduction, etc.),
- costs relating to a pre-financing guarantee lodged by the beneficiary of the grant, where required;
- costs relating to external audits where required in support of the requests for payments;
- non deductible value added tax ("VAT") for all activities which are not activities of the public authorities in the Member States.

Eligible indirect costs (overheads)

- a flat-rate amount, equal to 7% of the eligible direct costs of the action, is eligible under indirect costs, representing the beneficiary's general administrative costs which can be regarded as chargeable to the action.

Indirect costs may not include costs entered under another budget heading.

Applicants's attention is drawn to the fact that in the case of organisations receiving an operating grant, indirect costs are no longer eligible under specific actions.

➤ **Ineligible costs**

The following costs shall not be considered eligible:

- return on capital;
- debt and debt service charges;
- provisions for losses or debts;
- interest owed;
- doubtful debts;
- exchange losses;
- costs of transfer from the Agency charged by the bank of the beneficiary;
- costs declared by the beneficiary and covered by another action receiving a European Union grant. In particular, indirect costs shall not be eligible under a grant for an action awarded to the beneficiary who already receives an operating grant financed from the Union budget during the period in question;
- contributions in kind
- excessive or reckless expenditure
- any costs incurred by the beneficiary but re-invoiced to third parties

➤ **Calculation of the final grant amount – Supporting documents**

The final amount of the grant to be awarded to the beneficiary is established after completion of the action, upon approval of the request for payment containing the following documents:

- a final report providing details of the implementation and results of the action;
- the final financial statement of costs actually incurred;
- the beneficiary is also required to submit, in support of the final payment, a “Report of Factual Findings on the Final Financial Report - Type I” produced by an approved auditor or in case of public bodies, by a competent and independent public officer.

The procedure and the format to be followed by an approved auditor or in case of public bodies, by a competent and independent public officer, are detailed in the following “Guidance Notes”:

The use of the report format set by the “Guidance Notes” is compulsory.

If the eligible costs actually incurred by the beneficiary are lower than anticipated, the Agency will apply the rate of co-financing stated in the grant agreement/decision to the expenditure actually incurred.

In the event of non-execution or clearly inadequate execution of an activity planned in the application attached to the funding decision/agreement, the final grant will be reduced accordingly.

#### *Non-profit rule*

EU grants may not have the purpose or effect of producing a profit within the framework of the action of the beneficiary. **Profit shall be defined as a surplus of receipts over the eligible costs incurred by the beneficiary, when the request is made for payment of the balance.** In this respect, where a profit is made, the Agency shall be entitled to recover a percentage of the profit corresponding to the Union contribution to the eligible costs actually incurred by the beneficiary to carry out the action.

The verification of non-profit does not apply to low value grants, i.e.  $\leq$  EUR 60 000.

### **11.3. Payment arrangements**

A pre-financing payment corresponding to 70% of the grant amount will be transferred to the beneficiary within 30 days either of the date when the last of the two parties signs the agreement, or of the notification of the grant decision, provided all requested guarantees have been received.

If specified in the grant agreement/decision an Interim payment shall be paid to the beneficiary. Interim payment is intended to cover the beneficiary’s expenditure on the basis of a request for payment when the action has been partly carried out. For the purpose of determining the amount due as interim payment, the reimbursement rate to be applied to the eligible costs approved by the Agency shall be 50%.

The Agency will establish the amount of the final payment to be made to the beneficiary on the basis of the calculation of the final grant amount (see section 11.2 above). If the total of earlier payments is higher than the final grant amount, the beneficiary will be required to reimburse the amount paid in excess by the Agency through a recovery order.

### **11.4. Pre-financing guarantee**

In the event that the applicant's financial capacity is not satisfactory, a pre-financing guarantee for up to the same amount as the pre-financing may be requested in order to limit the financial risks linked to the pre-financing payment.

The financial guarantee, in euro, shall be provided by an approved bank or financial institution established in one of the Member States of the European Union. When the beneficiary is established in a third country, the authorising officer responsible may agree that a bank or financial institution established in that third country may provide the guarantee if he considers that the bank or financial institution offers equivalent security and characteristics as those offered by a bank or financial institution established in a Member State. Amounts blocked in bank accounts shall not be accepted as financial guarantees.

The guarantee shall be released as the pre-financing is gradually cleared against interim payments or payments of balances to the beneficiary, in accordance with the conditions laid down in the grant agreement/decision.

## **12. PUBLICITY**

### ***12.1. By the beneficiaries***

Beneficiaries must clearly acknowledge the European Union's contribution in all publications or in conjunction with activities for which the grant is used.

In this respect, beneficiaries are required to give prominence to the name and logo of the Creative Europe – MEDIA programme on all their publications, posters, programmes and other products realised under the co-financed project.

To do this they must use the text, the logo and the disclaimer available at [http://ec.europa.eu/dgs/education\\_culture/promo/creative-europe/eps/eps.zip](http://ec.europa.eu/dgs/education_culture/promo/creative-europe/eps/eps.zip), which will be provided by the Agency.

If this requirement is not fully complied with, the beneficiary's grant may be reduced in accordance with the provisions of the grant agreement or grant decision.

### ***12.2. By the Agency and/or the Commission***

With the exception of scholarships paid to natural persons and other direct support paid to natural persons in most need, all information relating to grants awarded in the course of a financial year shall be published on the Internet site of the European Union institutions no later than the 30 June of the year following the financial year in which the grants were awarded.

The Agency and/or the Commission will publish the following information:

- name of the beneficiary,
- locality of the beneficiary
- the amount awarded,
- nature and purpose of the grant.

Upon a reasoned and duly substantiated request by the beneficiary, the publication shall be waived if such disclosure risks threatening the rights and freedoms of individuals concerned as protected by the Charter of Fundamental Rights of the European Union or harm the commercial interests of the beneficiaries.

### ***12.3. Communication and dissemination***

To maximise impact, projects should have a clear and strong strategy for communication and dissemination of their activities and results, and applicants must provide enough time and resources to communicate and interact appropriately with peers, audiences and local communities as appropriate.

Beneficiaries may be required to attend and to participate in events organised by the European Commission or the Agency to share their experience with other participants and/or policy makers.
